**Falling From The Sky – 2008 Pt-1**

Artist: Shawn Warren © 2012

I saw myself driving from Lansing, IL., home when all of a sudden balls of fire began to fall from Heaven.

Everywhere they fell they exploded and whatever they hit was destroyed instantly; houses, cars, people and businesses. Those balls of fire that fell to the earth exploded and created deep crater like ditches and huge holes in the earth. I managed to ditch and dodge them all and made it home safe. As I pulled up to park and got out of the car I heard the sounds of helicopters and explosions. I woke up.

**Instructions after the dream:**

God told me to purchase 2 large plastic bins and fill them with first aid items (gauze, bandages, sterile rises for wounds and burns, triple biotic ointments, etc.). I obeyed. One bin was for the church and one for my home. I asked no questions I just did it. Then he had me tell the people of my congregation to do the same. Prepare. They obeyed.

God then told me to prepare large zipper bags filled with a pair of rubber gloves, a face mask, industrial strength sanitizer for the hands, and wipes. No questions asked, I obeyed God, and distributed a bag to the congregation.
